To All Flower Lovers Who Are Now Planning Their Gardens:

Moving means bargain prices—an opportunity for you to procure, this spring, Irises, Peonies, and Gladioli for border, mass, or individual planting at very attractive prices.

I am planning to move several varieties of Irises to my new farm this spring and, due to lack of planting space, it is necessary for me to dispose of some of my stock. All of these Irises are splendid for mass or border planting and the attractively priced offers on the inside page of this folder will help you solve your mass and border planting problems.

I cannot refrain from mentioning Mother of Pearl, the beautiful Iris shown in colors on the next page, for it is splendid for individual or group planting, and every Iris lover should have at least one root of it in his Iris section.

Every flower lover should also have Peonies in his garden, for these beautiful, massive blooms add beauty to any spot, whether it be in the garden or in the home. On the inside page you will find some worth while offers on Peonies for spring planting, and you can well afford to take advantage of them at these low prices.

I am also featuring "Glads" in this folder, and the "Glad" enthusiast will find two very attractive offers on the inside page.

It is my hope that this folder will be of some help to you in planning your garden, and I trust that this year's garden season will be one of pleasure and happiness.

Very truly yours,

LEE R. BONNEWITZ.
Mother of Pearl (Sturtevant)
Wonderful Values in Peonies and Irises for Spring Planting

You can easily grow in your garden beautiful Irises like the one here pictured and exquisite Peonies and Irises like the ones shown and described on the inside sheet. Plant them this spring and get the benefit of extra large Iris roots, with increase attached, at bargain prices, and good strong two to five eye Peony divisions at greatly reduced prices.

MOTHER OF PEARL

Mother of Pearl is a real gem of beauty, an aristocrat among Irises. Its splendid iridescent color, its perfect form, its vigorous growth and wonderful substance have won for it recognition as one of the world's best Irises. This variety is included in every Iris collection of merit in the United States, and should be in your Iris section.

Description

Standards and falls pale bluish lavender, with a faint creamy undertone. Large flowers of perfect form and exceptional substance. The creamy undertone of this exceptional substance often assumes the luster and iridescence which we see in the beautiful lining of many sea shells which produce mother of pearl. The plant is tall, a vigorous grower and a profuse bloomer. (Note picture on inside page.)

$1.00 Each
Six for $5.00

Each Iris root shipped this spring will have this year's increase attached, which gives you double value for your money. (See picture of root of Mother of Pearl on back of this folder.)
Your Garden needs these Beautiful Flowers to make it complete.

A border of these graceful Irises, a group giving gorgeous color, and the Iris Mother of Pearl seen colored illustration will cause you to marvel at the beauty of your garden.

Observation and experiment prove that these Irises are excellent landscape varieties, and they are offered here especially for mass and border planting. The roots should be planted at least twelve inches apart, for the new shoots will develop into full-size roots this fall, making an evenly balanced border or group planting. Complete planting instructions will be included with each shipment.

SPRING PLANTING

I have found by experience that Irises planted in the spring produce excellent results. and this year I recommend spring planting more strongly than ever before because of the very desirable ripens I am receiving from customers who planted Iris Mother of Pearl in the spring of 1926.

Strung, healthy roots, with increased attraction, at bargain prices.
